PROFILE

Hi there! If you're reading this, it means I have resonated with your company and its vision, and I would very much love an opportunity to intern at your company this summer (May - August 2019)!

I am an avid computer science undergraduate skilled in object-oriented programming and algorithmic problem solving with interests in doing software development in the long run. I take pride in being able to collaborate and communicate well with others on projects.

EDUCATION

GCSE 'O' Levels

Pasir Ris Crest Secondary School
2008-2011
6 Distinctions - L1R4:6 ; L1R5:8
